

**Habitat Management (CSP Enhancements)**  
**Colorado Enhancement Activity Job Sheet H-7**

**February 2005**

**Name:**

**Retain Tall Stubble, Minimum 15", Through Winter**

Payment = \$3.00 / acre / year for each acre where harvested grain stubble is a minimum of 15" or taller. Stubble will be not be tilled until after July 1<sup>st</sup>, but during this time weeds will be adequately controlled through spraying or biological agents. If a spring crop is planned, it must be no-tilled into the existing stubble.

This enhancement provides food, escape cover, day and night roost sites, and nesting sites for a number of wildlife species ([list local species that will benefit](#)).

**Documentation Required:** Use the following Table for documentation. Attach a plan map showing the field numbers where the stripper header will be used.

Tract & Field Numbers	Target Species	Type of Grain	Stubble Height After Harvest	Date of First Tillage

**Tall Stubble Certification**

I certify that I am leaving a minimum of 15" of stubble in the fields identified above.
